

UNCREWED SURFACE VESSELS (USV) SERVICES

Vision: We are your trusted expert in maritime monitoring and surveillance

Mission: Your partner in solving complex maritime problems, powered by innovation and expertise

Combining extensive Defence experience and strong collaborative partnerships, we offer a range of services that are innovative, tailorable and cost-effective.

We employ experienced operators who have deep understanding of USVs and will work closely with you to understand your needs and success criteria.

We offer a suite of sensors and communications equipment, or can rapidly install your equipment to meet your specific needs.

▶ The Value We Bring

- ✓ Safe, reliable, economical
- ✓ Experienced USV specialists
- ✓ Rapid installation & testing of client sensors
- ✓ Our USVs have minimal visual and Radar Cross Section (RCS) signature
- ✓ Along with our US partner, we develop innovative capabilities and Tactics, Techniques and Procedures
- ✓ Supported by a strong global supply chain, we collaborate with local, national and international partners

► Our Approach

Listen

We first listen to understand the challenge, the required expertise and environmental considerations. Understanding your needs allows us to work with you to consider effective and efficient options.

Collaborate

Led by our qualified experts, we partner with suitable stakeholders to develop tailored solutions that meet client requirements. We leverage specialist skills, and have a deep understanding of the equipment and processes to make your project a success.

Deliver

Whether leveraging our advanced sensor systems or working with you to install/integrate and test yours prior to deployment, we ensure readiness and reliability in delivery.

► Our Services

Advanced oceanographic monitoring using robotics and autonomous systems

Test and Evaluation (T&E)

Maritime data collection, analysis and interpretation

Capability development and payload integration (R+D)

Elysium EPL has the necessary AMSA certifications for autonomous operations inside the Australian EEZ. We provide comprehensive support across all phases of operating USVs – planning, certification, deployment, data acquisition, analysis (as required) and reporting – delivering seamless execution and shared success.

Comprehensive, enduring solutions

Solving complex problems through an ethical, trusted and logical approach, Elysium EPL is a professional services firm trusted to help clients realise their vision, and convert their ideas to lasting outcomes.
