

# Business Resilience and Protective Security Practice

Elysium EPL Pty Ltd is a small and growing Australian owned management consultancy. Established in 2017, we now support a range of clients in the Federal and State Government including the Department of Defence, Home Affairs, Australian Small Business and Family Enterprise Ombudsman (ASBFEO), Australian Federal Police, Universities as well as Industry across a number of sectors.

Elysium EPL's **Business Resilience and Protective Security Practice** offers strategic-long term protective security and business resilience capability building. Our specialists provide best practice business continuity and security assurance to meet the needs of current, enduring and emerging security challenges. They possess prevention, preparedness, response and recovery (PPRR) planning, intelligence fusion and risk management skills and knowledge required to minimise the impact on people, assets and information during major disruptions such as a terrorist attacks, pandemic responses, natural events or other man made events. They can develop or review and update existing security and resilience plans, and conduct education and training sessions and exercises to ensure you and your business is resilient.

**Elysium EPL's Business Resilience and Protective Security Services specialists have the experience to ensure our clients' businesses and operations continue throughout disruptive events, meet regulatory requirements and provide secure places. We offer business continuity and security assurances, including security risk management, business continuity planning, incident management plans, education and training sessions and exercise components from start to finish. This comprehensive planning process is key to keeping people safe and minimising disruption and damage to our customers' businesses and operations.**
